

# Why is RITE AID trying to take away seniors' health care?

Rite Aid is on track to make millions this year. How are they celebrating?

Rite Aid is currently trying to eliminate the health care benefits for its retired workers—many of whom worked for the company for decades.

These seniors depend on their benefits to survive. It is wrong for the company to take away security from the most vulnerable.

This is just one part of Rite Aid's campaign to make itself richer at their employees' expense.
